

Monitoring and Assessment to Protect Tribal Health and Ecosystems

Thomas Baugh
Environmental Scientist
Region 4
(404) 562-8275
baugh.thomasl@epa.gov

Key Words: tribal, mercury, deposition, nutrients, air quality, asthma, exposure

Monitoring and Assessment to Protect Tribal Health and Ecosystems will educate the audience about several monitoring and assessment activities ongoing in Tribal country to understand the status and trends in environmental protection activities.

Speakers who will lead discussion

Valerie Bataille, EPA Region 1 (Session Chair)

Nancy Costa, Fond du Lac Reservation Environmental Program

Towards a Better Understanding of Mercury Fate and Transport on the Fond du Lac Reservation

Steve Crawford, Passamaquoddy Tribe at Point Pleasant Environmental Director

Measuring Primary Production of Coastal Waters and “Green Slime” on Clam Flats on Tribal Lands

Fred Cory, Aroostook Band of Micmacs

Developing Native American Exposure Pathways

Each of the speakers is a Tribal environmental professional.
